

Subject: REACH 1907/2006/CE REGULATION

Referring to the REACH 1907/2006/CE regulation, concerning the registration, the evaluation, the authorization and the restriction of the chemicals, the company SISTEM PNEUMATICA Srl states that all the suppliers were contacted to verify their position about the Regulation.

From the survey carried out, it results that none of the substances in the SVHC list is present in our items in quantity higher than 0,1%; moreover the mentioned items don't have intentional release of the above substances, therefore there is no registration requirements.

Therefore our customers are not due to register any substance about our products.

The above is referred to the substances actually present in the Candidate List (SVHC substances, last 12 january 2017 updating).
