

Subject: 2011/65/UE and 2015/863/UE Directivs (ROHS) : restriction of the use of certain hazardous substances in the electric and electronic equipments

Referring to the Directives in subject of this declaration, SISTEM PNEUMATICA SrL declares that its own products are not included in the application field of the 2011/65/UE Directive and further 2015/863/UE delegated directives.

SISTEM PNEUMATICA SrL made anyway an activity of analysis of the materials used in its own products, involving all the suppliers, it resulted that the percentage of lead present in the brass and aluminium components is among the limit fixed by the Directive.

SISTEM PNEUMATICA SrL , is able tu supply all the declarations transmitted by the supplier of the materials, with the exception fo the "Kseries", which testify that the substances considered dangerous are not present in its own productts:

- Mercury
- Cadmium
- Hexavalent Chromium
- Plybrominated Byphenils (PBB)
- Ether of polybrominated dyphenyl (PBDE)
- Bis Phtalate (2-ethylhexyl) (DEHP)
- Benzybutyl (BBP)
- Dibutylphtalate (DBP)
- Diisobutyl (DIBP).
